

1-Cell Blinder S/E

with yoke, ACL lamp and power cable with bare end

PAR36 blinder column

Single blinder for truss integration or special applications

- "Safe and Easy" construction
- Extremely sturdy housing
- Easy lamp access, assembly and test on the back
- Improved vent slots
- Optional yoke

The Major blinders are manufactured in Germany and are equally suitable as bright panel lighting or to provide the "Audience blinder" effect.

They can be equipped with PAR36 ACL lamps 28V, 250W for a beam effect, or with PAR36-DWE lamps 120V/650W for very powerful two-dimensional lighting.

Scope of delivery

Power cable with bare end

Article

010783 1-Cell Blinder S/E, with yoke, ACL lamp and power cable with bare end
