

Electronic ballast unit for Source Four® Daylight PAR PRO

powerCON, black, MSR

- External, electronic ballast device with quick-connect system
- Dimming range 60–100%
- Quick hot-restrike function
- Auto-restrike function
- Also for daylight luminaires other manufacturer usable

The external, electronic lamp ballast makes it possible to restrike the spotlight while hot practically without delay and dim it continuously down to around 60%.

Power for up to four Source Four® Daylight PAR PRO spotlights can easily be looped through the quick wiring system (powerCON).

Technical specifications

IP rating	IP20
Input connectors	powerCON blue
Net weight	2.5kg
Operating voltage/ Supply voltage	230V
Output connectors	Schaltbau M1
Power	575W MSR/HSR
